WHAT IS MITRIXO

YOUR GYM BUSINESS IN ONE SYSTEM

MITRIXO is white-label gym management software. It connects your sales process and daily operations with a member experience carrying your gym's identity.

Staff can follow the member journey without rebuilding the same information in a separate tool for each department.

FOR YOUR TEAM

A shared operating view

Member records, schedules, collections and follow-up, organised by role.

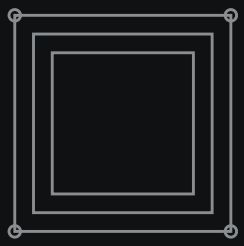

Bravo and Delta share the platform foundation. Each edition emphasises a different way of running a gym.

EDITION 01

BRAVO

Built around the training schedule.

For boxing clubs, combat-sports gyms and coached studios where the timetable, member packages and attendance shape the working day.

01 / MEMBERSHIPS

Know who can train

Manage member profiles, package validity, renewals and payment history in the same workflow.

02 / CLASSES

Organise the timetable

Publish sessions, manage class capacity and review bookings and attendance.

03 / COACHING

Keep sessions visible

Coordinate coaches and personal training, with session records connected to the member.

04 / RECEPTION

Run the front desk

Search members, check them in, record collections and follow up on renewals.

EDITION 02

DELTA

Connect the whole club.

For fitness clubs and performance centres offering memberships, personal training, group classes and nutrition through several teams.

01 / MEMBER JOURNEY

One member record

Connect lead follow-up, sales, packages and ongoing service history across departments.

02 / SERVICE DELIVERY

Coordinate more services

Bring PT, classes and nutrition appointments into connected member and staff workflows.

03 / CLUB CONTROL

Handle the exceptions

Review requests, approvals, member complaints and operational tasks with accountable staff roles.

04 / MANAGEMENT

See the operating picture

Review departmental activity, collections, outstanding balances and reports.

BEHIND EVERY MEMBER EXPERIENCE

GIVE YOUR TEAM THE WORKING TOOLS

Keep the routine work visible, with the records managers need to review it.

01

Sales and follow-up

Keep enquiries, member records, call outcomes and next actions connected.

02

Payments and balances

Record collections and payment methods, review outstanding amounts and retain transaction history.

03

Bookings and attendance

Coordinate the schedule and distinguish reservations from completed visits.

04

Roles and approvals

Organise access around staff responsibilities and route controlled changes for review.

05

Reports and exports

Review activity and collections by the available filters, then export for further analysis.

06

Club services

Add configured workflows for nutrition, lockers, guests, orders and member complaints.

Available modules and permissions are agreed for each installation. Selected club services depend on the chosen configuration.

CHOOSE BY OPERATING MODEL
